Expedition App MVP

Idea

Expedition is an app that allows users to plan their dream travel destination bucket list by showcasing a list of the most popular activities, tours and experiences available in several of the most popular travel destinations around the world.

Primary features

Users will be able to:

General App Features
• Create an account
• Log in to user account
• Personalize profile
• Edit bucket lists
  • Edit bucket list items
  • Delete bucket list items

Destination features
• Search for a destination
• View destination details
• Add destination to "Destinations" bucket list

Destination activities features
• Search for activities offered in a specific destination
• View activity details
• Add activity to "Destination Activities" bucket list (E.g. London bucket list)

Future features

These features are intended to be implemented in the second release of the app

• Create custom travel Itineraries
  • Custom destination bucket lists (e.g Euro trip 2022 - London, Madrid, Paris)
  • Custom destination activities bucket lists (e.g London Day 1 - Act1, Act 2, etc..)
• Social media integration
• Ability to reserve / book an activity from its vendor directly from the app
